

Interface Industrial Computers suitable for use in harsh environments

- ❖ Extended Temperature $-30^{\circ}\text{C} \sim +70^{\circ}\text{C}$
- ❖ Compact as small as a postcard
- ❖ Tough and robust

- ❖ Anti vibration of 5G
- ❖ Anti shock of 100G
- ❖ Backup battery against unstable power grid

No shutdown needed.
Just unplug it. It's done.

Backup battery for sustainable operation against unstable supplies of grid electricity

A lot of applications in harsh environments including:

Extended temperature $-30^{\circ}\text{C} \sim +70^{\circ}\text{C}$

Applications in harsh environments

HOT
 $+60^{\circ}\text{C}$

$+60^{\circ}\text{C}$

Weather radar

$+60^{\circ}\text{C}$

Rain gauge

$+60^{\circ}\text{C}$

Desert

Applications in harsh environments

-20°C **COLD**

-20°C

Rail track monitoring system

Highway monitoring system

-20°C

● Sole subsidiary of established in 2006

● International Division of

● Global Communication Point

Sales Inquiry & RFQ

Delivery & logistic information

● Benefits

Direct Shipment from Factory

Standard Product Warranty

● To be the solution provider for Global Companies

Small to mid-volume production

Manufacturing partner

High-mix model production

Unique Global Manufacturer
Specialize in small to mid-volume production

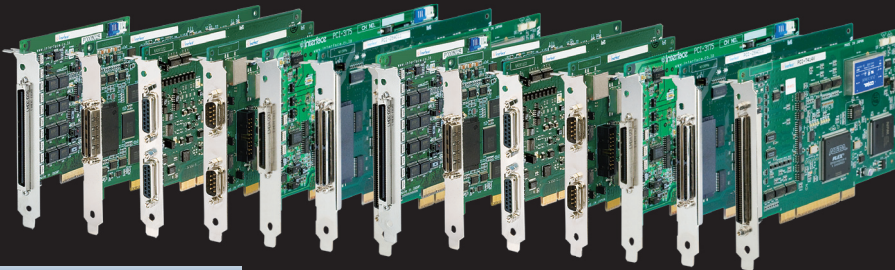

Can be Global Manufacturing partner
Can provide the solution to meet your needs

Products

Interface Modules

Several hundred different types of interface modules lineup
