

**New PCI Express Interface Boards
(PEX-H Series) Have Been Added**

Interface Corporation has added some additional models to the new PCIe-H (PEX-H series) product line. Interface Corporation has been manufacturing over 400 different PCI and PCIe interface boards since 1997. The new PCIe-H (PEX-H series) boards are designed to meet shifting industry requirements. The new PCIe-H (PEX-H series) have similar specs and functions of the PCI boards; making them ideal replacements for some of the conventional PCI interface boards. Industry trend is shifting from PCI to PCIe boards for newer Industrial PCs.

Features

- Similar specs and functions of PCI
- Some models are compatible with conventional PCI
- Designed and manufactured for customers' needs and requests
- 100% PCIe compliance tested
- Easy transition of model change from PCI to PCIe
